For results questions contact Tim Wehner twehner@bell.net

Note from Tim:

Thankyou all for coming to race with us this weekend.

Please be aware there is an error in the 5km&10km combined race that started at 1230. I will leave it to you to spot the error and tell me where it occurred!

Unfortunately I had prepared two separate bib finish sheets for the 5km and 10km race but all finishers recorded on the same printable stopwatch. At some point in the middle of the results I can't tell who is the fourth 5km skier. If you look at your watch and see your time is different than what you thought it should be look at all the results M/F/5km and look for the time one faster or one slower than yours. Send me your true time and I will edit the results from that point on.
